# MATTEUS REGO

One of the most reliable Czech suppliers of packaging providing comprehensive portfolio of packaging products, services and solution that reduces cost.

## *Priority*

The most satisfied customer is our main goal. We focus on cost reduction in packaging and logistics companies on the Czech market, but the quality remains our highest priority.

## *Strategy*

We focus on building long-term customer relationship - emphasis is placed on the principle of win-win - only a satisfied customer is our good reputation.

# MATTEUS REGO

## *Today*

- executive director: Mgr. Eva Rozsypalova
- company headquarters: Pilsen, Czech Republic
- logistics facilities: Pilsen, Czech Republic (area of Maurice Ward & Co., s.r.o.)
- products portfolio: EPS and EPP moulded foam, corrugated boards, EPE fabricated foams, PE bags (HDPE, MDPE, LDPE, antistatic ), foils, PP sheets, gaskets, rubber, PA5 nylon, heat insulation, tarpaulins

# DESIGN & DEVELOPMENT

## *Today*

The key to getting a satisfied customer, understanding his wish.

Packaging design is created according to specific customer needs. Always the focus is on cost optimization - which allows the diversity of used packaging materials.

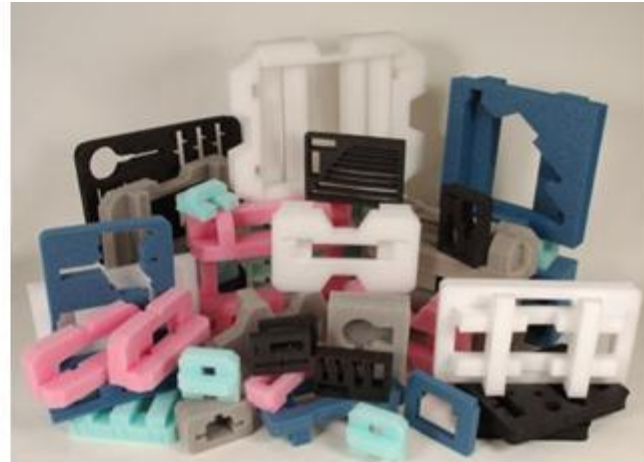

Not always true: the cheaper material = cheaper packaging

# PRODUCTS

## *Fabricated Foams*

Polyethylene and polyurethane foam cushion fabricated products to deliver excellent protection against shock and vibration – enough to pass precisely measured impact testing. And we only work with foam suppliers that prioritize competitive prices and consistently high plank quality.

Polyethylene plank foam — addresses specific shock absorption issues. It's recyclable, reusable, and absorbs repeated shocks, making it a leader in protecting valuable and delicate products.

# PRODUCTS

## *Molded foams*

Our company Matteus Rego is able to ensure the production of any shape Molded foam - in design EPS, EPP, Arcel. We supply packaging permanent - for fixing parts for automotive and disposable packaging for fixation of final products in the electronics industry. This is the packaging with high shock-absorption capability, easy handling, advantageous price for higher consumption.

# PRODUCTS

## *Corrugated packaging*

Matteus Rego delivers a wide portfolio of all types of corrugated cardboard packaging depending on customer's request - including multi-color printing (offset / flexo). we are able to optimize the carton type waves depending on its use, while maintaining the characteristics of the packaging.

# PRODUCTS

## *Packaging of Cartonplast*

If they're not in the market corresponding molded plastic crates, then it is just for you designed packaging made from Cartonplast.

Polypropylene cellular sheets are lightweight, elastic, hygienic and reusable. We are able to propose any dimension outside the box, packaging, including fixation.

# PRODUCTS

## *Molded Pulps*

Molded pulp packaging is a technology that allows the waste paper to produce new packaging, egg trays and fruit crates, shipping pallets and other products. They are widely used for their strength, flexibility and shape flexibility with minimum weight and low cost. Products are easily stackable and fully recyclable. Well dampens shock and vibration.

Shipping pallets and containers from molded fiber are ideal for one-time non-refundable and delivery of goods and products.
